

As a user meet/connect with others that are in the same life stage

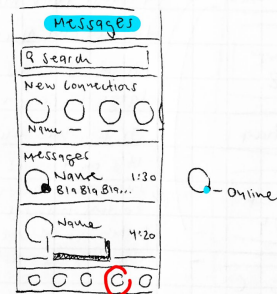

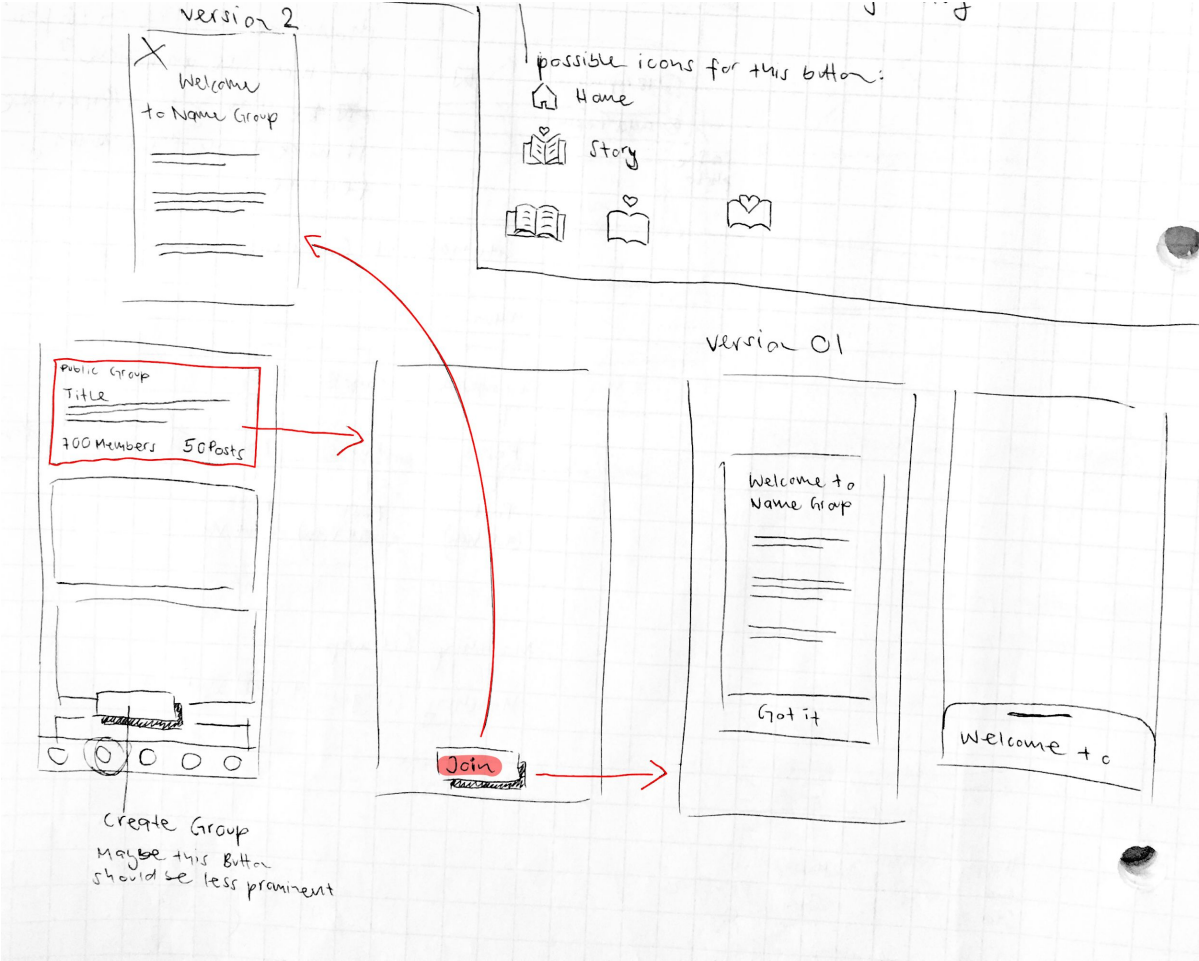

- What should be on the profile?
- Name
 - Location
 - Language
 - Category (Parent of Undiagnosed child, Undiagnosed, former Undiagnosed)
 - Intro / Something about myself
 - Photo
 - Recently joined Groups
 - Recent Posts
 - "Say Hi / connect" Button
 - "DM" Button
 - Age

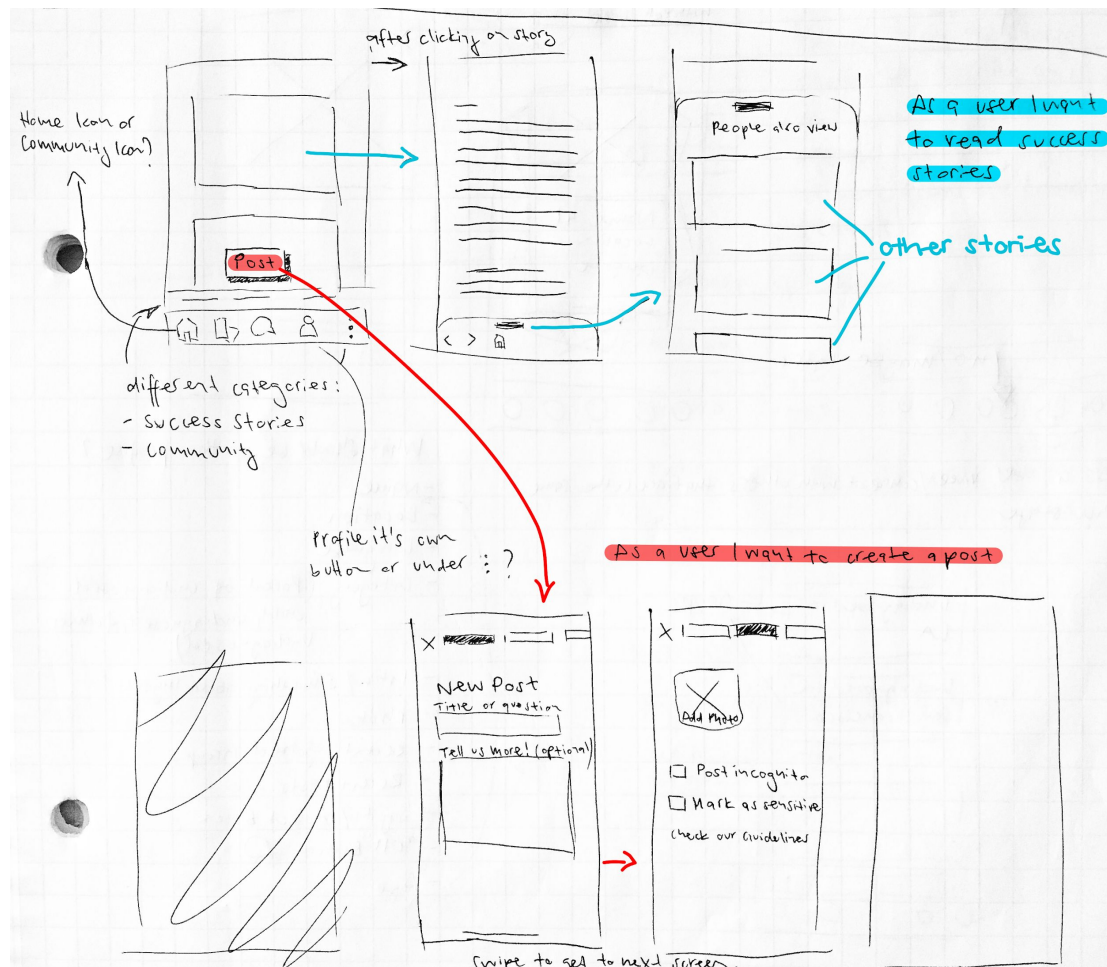

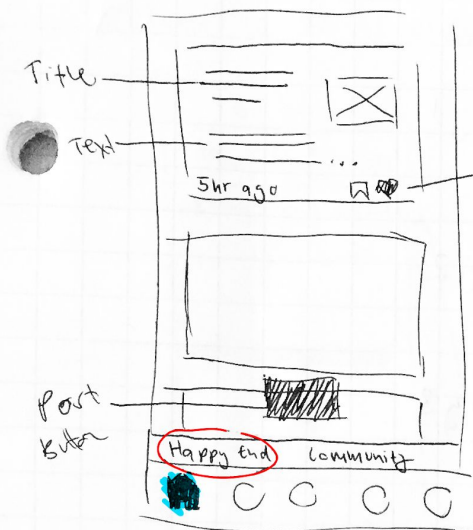

Content for Profile

- Name
- Age
- Location
- Category
- Bio
- Photo
- Settings (could be all in one Guidelines)
- Preferences
- Edit Profile
- My Connections (Users I connected with)
- Invite Friends
- My Groups
- My posts
- ~~Language~~ While you were gone → Don't include that in the MVP, include that for a later time

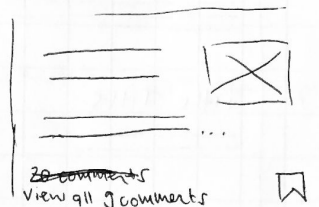

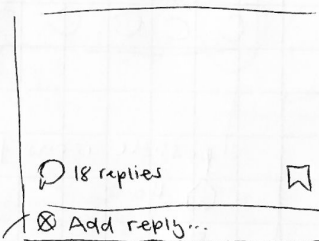

Happy end stories

Very important for users because those stories will give them hope

Save other icon?

- Give user opportunity to comment
- Give user opportunity to bookmark it
- picture adding is optional
- also let users choose if they would like to stay incognito (anonymous)
- have a "like" button there?
- Let them know when it got posted time/or date

Profile photo

Maybe Happy end stories should be less like an "IG post" and more like an article?

~~Maybe~~ Having it differentiate it more from the Community feature
