edit Profile

Does edit button need such an important place? or is it more justified to place it without a floating effect?

users can decide in settings if they want to match with all three categories, or not

swipe yes

tap

no/maybe later

Happy End Stories   (Good News Stories)?

Title ——

Text ——

Very important for users because those stories
will give them hope

5hr ago   Save other icon?
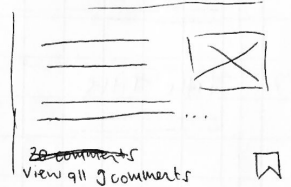

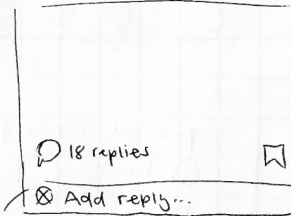

— Give user opportunity to comment
— Give user opportunity to bookmark it
— picture adding is optional

Maybe Happy End Stories
should be less like an "IG post"
and more like an article?
Having it differentiate
it more from the Community
feature

Success stories of users that received correct diagnosis
